How to learn it

1. Hold one chord and play the pattern over and over, slowly, until your picking hand does it on its own.
2. Change chords on beat 1: the new shape has to be down by the time your thumb picks.
3. Then the song, slowly (Pick → Play, with the practice speed turned down), up to speed over a few days.
4. Then sing over it. If the words throw your fingers, go back to an easier pattern for a while.
